CHALLENGE WEEK

15-19 JULY 2024

Challenge yourself: it's the only path which leads to growth.

CHALLENGE WEEK

What's it all about?

As most of you will know, during the last week of the Summer Term we dispense with the timetable so that all students can benefit from a week of trips and experiences. During Challenge Week, we offer a range of options, some involving residential stays and others based from home, across a range of interests and at various price points.

Each Challenge has activities spread over four days (Monday to Thursday) and we come back together in school on the Friday for a whole-school assembly and presentations, before breaking up for summer at 1.30pm on 19th July 2024.

How to choose:

Trips are open to all year groups and your choice will probably boil down to the best fit between your interests, new things you'd like to experience, things you know you'll enjoy and cost. Discuss the options with your family and chat to your friends. Whilst you might prefer to be together with your friends, please remember that if your friends aren't keen on the same Challenge as you or you don't all get your first choice, you can still have a great time when you are busy with activities and getting to know other people. This is part of the Challenge!

Rather than choosing something you're already familiar with, why not opt for something slightly out of your comfort zone and challenge yourself to learn or experience something new?

Parents/carers: Please see the inside back cover for a note on costs and affordability, along with details of the sign-up process.

IMPORTANT INFORMATION

For parents/carers

Some Challenges are residential, some are non-residential and the cost of each differs as per the information in this booklet. We are conscious of financial pressures and have made sure there are options for a range of budgets and several that are £25 or less, all of which can be paid in instalments. Discounts are available for families who qualify for Free School Meals and the reduced prices are indicated in the trip details. If you are experiencing particular financial difficulty, please speak to Mrs Heath in confidence before sign-up goes live.

There are limits on the number of students who can participate in each Challenge (due to factors relating to transport, accommodation and activity capacity). Whilst we hope most students will be able to participate in their first preference, we unfortunately can't guarantee this and the sign-up process is intended to be as fair as we can make it.

To ensure all students have the same opportunity to discuss the options with family and friends, we will open sign-up as below. Preferences cannot be submitted before.

Sign-up & payment process:

- 1** Consider the Challenge Week alternatives carefully with your son/daughter. They might also like to discuss with their friends. **DECIDE ON A FIRST, SECOND AND THIRD PREFERENCE.**
- 2** The 'opening date/time' for sign-ups will be **7PM on MONDAY 26TH FEBRUARY 2024**. The sign-up process will be a very simple online form that can be completed on PC or smartphone. The form will be live on the school's website at the time above and we will also text a link to the form at the same time. If you have genuine difficulty completing an online form, please let Mrs Heath (Office Manager) know before sign-up goes live. The website page can be found at: www.theswanageschool.co.uk/challenge-days or navigate the website menu: [School Life > Challenge Days/Challenge Week](#)
- 3** Allocation of places will be on a first come, first serve basis (allowing for any restrictions created by single-sex sharing on residential trips). We check trip lists before confirming places and reserve the right to make changes where we feel they are justified. We will let you know if we have any concerns about the way the allocation has panned out that affects your child.
- 4** **TRANSFER WINDOW!** New this year we are trialling a transfer window! Once lists are available, we will publish these in school for students to see. Should they wish to change their choice at this point, there will be a process to request this. Please note, allocating places based on transfer requests will not be an exact science, but rather a 'best fit' approach. Swaps or moves will only be possible where spaces are available, and this process should not be used simply to request a 'first choice' where a 'second choice' was allocated. We will factor in the original choices when dealing with transfer requests. We aim for the transfer request window to run between 1st-5th March, and to finalise lists by 7th March.
- 5** **Once confirmed, the Challenge will be allocated on your ParentPay account** – our aim is to do this by the end of the day on Friday 8th March.
- 6** **Deposits will be due by Tuesday 12th March** to secure places.
- 7** **The balance for all Challenges are to be paid (via ParentPay) by no later than 1st July 2024.** The balance can be paid in full or over 4 instalments (1st April, 1st May, 1st June, 1st July).

Never be afraid to try something new, because life gets boring when you stay within the limits of what you already know.
